LIFECOACH

A day came, when I had to quit my most passionate and most loved profession, I'd loved to take up in my life. School teaching.

I resigned from my job as a school teacher as my husband's promotion as an officer in a National bank and family care to be taken up on priority - by Nature's law.

We moved our residence to Jamshedpur, the steel city on 2nd July, 1994. My two children, and the two elderly parents of my husband and two of us. There began the new era of my life, beyond my imagination.

As our train journey began with total trust in nature, it started with a bit of pain in the elders' hearts as they had lived more than 80 years of their life in the same place.

Yes, as we wanted to get down from the electric train at Chennai, his mother had a fall and I had only tears in my eyes thanking my god's for having protected her without even a scratch or pain to her. Next, as we were boarding our train to Jamshedpur, one of our baggage containing a few of our silver vessels just broke open. Before I had observed, people on the platform picked it up and handed it over to me with all sincerity and for a moment I felt my gods' had only appeared and helped me out.

It has been my experience ever since I have been a child of 7 years that, before I think about something, nature guides me to its plans for me to bless and keep me at just watching and accepting nature's plans as nature is more intelligent...

These lines have always appealed to me and I always surrender to nature at every given point of time and analyze or judge the least.

As we managed to settle ourselves in our home, there I was surprised to hear people asking me to teach English to college students and Sanskrit to highschool students.

Just accepted and thanked nature for the blessings.

Whenever we do any work with dedication, we can be satisfied with ourselves and satisfy others too. I found the learning was very enthusiastic as well as disciplined. Then came a phase of severe illnesses to the elderly persons in the family. Again a test of patience and a positive breakthrough came in the form of a four-wheeler.

Driving being learnt to help self and family.

I felt very calm when I could drop and pick up my children from school and also help my father-in-law visit the saloon or meet his friends.

Everyday passed calmly in spite of tough situations on some days

What followed was the golden day of my husband learning Reiki I Level. Which helped him personally a great deal at the workplace and home environment.

I was quite curious about learning but had to wait for the divine timing and that was the Day of Rebirth for my life. Nature had chosen the time and my master in a very calm manner and thus began my Reiki journey to keep me all time in bliss. Which many may fail to understand or sense.

The attunement was such an experience that there are no words to explain the silence it created within and I only began to Watch, Accept and Proceed with life free from a questioning mind.

So one night as I was going on with the healing process, I felt it was a dream and I found myself visiting buddhist temples at Sarnath and in Nepal. I just felt blissful and a few hours later, my husband asked me if we could go on a short trip to Sarnath and Nepal.

I only thanked, thanked and thanked Nature for its beautiful way of taking my life on an extraordinary mystical and yet blissful path, which my mind could

have never imagined and forget about achieving. My feelings of hunger had opened up.

As we traveled, all was so blissful and we meditated at Sarnath as well as Nepal temples, feeling all beyond words.

The pashupatinath temple added to an unique experience of lord Shiva himself attuning me and assuring me I am always with you, you only have to remember me.

Tears rolled down in gratitude to feeling the divine communicate so clearly. With a heavy heart I returned to the room, I had a feeling of severe cold and fever within an hour. Just went to sleep.

Was midnight and I again felt it was a dream.

I could see my father in law being admitted in a hospital and severely ill. When I told my husband about it, he thought I was unnecessarily worrying about him. But then, within a few minutes he got the information that he was in the hospital. I tried healing him though I was just a 1st degree channel, and was given a vision of him becoming stable sooner and thanked nature for the calmness by this feeling.

So after the safe return began the preparation for settling back to bangalore. Each day seemed so beautifully planned by nature and I felt I only had to move as nature had planned everything with very peaceful, helpful people around. Though the heart experienced a kind of pain to part from a few divine good human beings here.

So, life goes on with the presence or absence of different people at different phases of life but with sweetest memories of gratitude towards all of them.

By now I had gained the confidence to move forward in coordination with nature's law. By using nature's energy to help my parents, in-laws, by healing them regularly.

It helped them remain calm mentally. I deeply conversed with nature to move forward and had an opportunity to write an article on Reiki in a newspaper.

It connected me to a very divine soul, a Reiki master who visited me and helped me learn the second level of Reiki, Which opened me up to a higher refined energy level.

The attunement was a very blissful experience with clear vision of great spiritual and religious masters blessing me with a blissful feeling at heart.

Now began the true mystical journey with cosmic energies in a splendid and marvelous way with a higher feeling of refined energies working with me all the time and keeping me active for 16 hours in a day with least complaints about life or people around.

I also experienced that the acceptance levels were very refined and expectations were negligible. Which in turn brought in anything and everything I needed, even before I needed it. Be it help, be it materials. Above all, I had observed that my thoughts were always focused on how much better I could help the needy with this Reiki energy.

By the time I healed and underwent the 21 day cleanse process, my feeling to heal the needy had increased which attracted aged women with various health problems to meet me.

I would heal at least five or six women everyday along with energizing my house, older parents, children and my helpful people. Now I began to feel that I should be learning further levels as these older women found it difficult to come to place regularly and would suffer in various ways. I felt if I teach them I would help them in a better way to take care of themselves in a more responsible way.

Another day I had to attend some spiritual lectures so I washed clothes and left home. When I reached the venue I observed my finger ring with emerald stone was missing and in seconds I could see it was in the corner where I had

washed clothes. I requested 'Reiki' to keep it safe till I went home by evening and picked it up. I found it untouched by anyone though my servant had done some jobs in the same place. Only tears of gratitude.

Once my husband planned for a tour of 15 days to Delhi, Haridwar and other places. In this period my parents-in-law had to be taken care of by my sister-in-law. I had energized the tickets and paid and placed them safely. About 15 days prior to the trip my mother-in-law was severely ill. We admitted her to the hospital, we brought her home and recovered and as she hadn't seemed totally healthy we were finding it tough to make a decision on going out on tour but by Reiki blessing we completed our tour much more peacefully beyond our imagination.

Now begins the new life in the same old house but with nature's consciousness and pure Reiki energies guiding us at every step of our life.

One day a friend of mine came to me and was in great grief due to severe pain on both of her knees. She had been a tailor for more than twenty years and had developed this pain. I could easily trust Reiki and told her that she should come to my place the next day and I would try relieving her from the pain.

Just with complete trust in my master and Reiki I began healing her everyday for about an hour with my minimal knowledge of Reiki. I offered her a glass of milk daily to help her feel relaxed as she was driving alone. I also helped her with a few food items as she wasn't able to create money for her day-to-day living. By 21 days of healing regularly, pain had reduced by about 50%

I had that trust with Reiki, so asked her to come for one more round of healing. In this period I found her very relaxed, unworried, with the least complaints and on the tenth day she said, I am totally relieved from pain! So I felt grateful for the energies but continued the healing for the next 11 days.

During this time, I also found instances of people reaching out to help her in unexpected ways everytime she needed it. The greatest experience she learnt was about her self-confidence level being increased and fears totally absent in her day-to-day life.

For example, she feared crossing the road or traveling alone and always carried a paper with her house address in her bag.

Thanks to a cosmic miracle, to the most needy person, her I had never thought of any exchange at all. But one day she offered to stitch something for me. I allowed her to do so with respect to her feelings of gratitude.

So the first person was healed by cosmic energy in a miraculous way keeping the mind and the soul at peace.

Which was the highest need to lead a normal peaceful life.

A lady with Parkinson's disease was nearly all healed within 21 days of the healing process.

One of my maids with severe body pains after the flu was relaxed with three days of healing. One day I was just teaching something to small children and a parent came and reported that her 8 year old had not returned home after school. I just prayed and connected myself to Reiki energies and in seconds I got a vision of the boy inside a white light pyramid and in just seconds I could speak few words and it was beyond my imagination, I asked the mother if she had some relatives at White Field, a place about 30 kms away from their place of residence. her answer was her parents lived there and the boy loved them much and in a few minutes all the confusion was cleared and the mother was thankful and happy that i could tell her all this and for the first time i could feel my clairvoyance and clairaudience had began its noble work to help the needy on right times.

A lady approached me saying she had a severe problem with digestion. Just healing her for 10 minutes, she was relieved of her problem completely! Thank the cosmos for the miraculous healing.

One of my friend's daughters had lost her ornaments worth 42 lakhs. She was unable to find out how and where it had been misplaced. As I tried to meditate on it, the energies guided to a vision of them being between the space in her own almirah. She was astonished and said she had searched the whole almirah except the same section, and finally thanked Reiki.

A woman came to me saying she was highly distracted as her husband was not working. So no earnings, and she had a son who had to be taken care of. Her mother was supporting them financially. I healed her for 3 days, and advised her to learn the I and II levels of Reiki. With this her husband's mind had begun to change and he began to look for a job. He got a good job and he too learnt Reiki and they are a very good family now. They have educated their son well and today he is drawing a salary of both. From the day they learnt Reiki they have been realizing it, and they also helped other people from their families by asking them to learn Reiki and also lead better peaceful lives of confidence.

A lady with two children came to me, they were a very nice family. She was full of fears and laziness and not confident even to take the smallest decision for herself. Healing her for three days had revived her. She willingly learnt the 1st level, and practiced regularly. On the 22nd day, she was ready to learn the 2nd level. I had found her to grow in every way. Earlier she practiced and had undergone a minimum of cleanse process like light fever and some irrelevant dreams but was not disturbed about them. As she had understood very well that it was nature's path allotted to her.

By now, some people had begun to know about Reiki and me helping the needy. But my thirst for learning the further levels of Reiki was my only thought at all times. My thirst for knowledge had become so intense that I lost my feelings of hunger and thirst. Would always wait to request my master to take me through the III level of Reiki.

One day I checked if my master was free? Made time to have a detailed talk with her and request for the training session. I spoke and she advised me to wait some more time. I agreed and returned home but my craving was increasing day by day.

I had just become restless and one day requested Reiki to help me with this situation and slept off in the night leaving it to Reiki. Next morning, I tried to bring the newspaper and felt the divine blessing just as I thought about it.

I saw an advertisement about Reiki classes conducted by a master, with phone numbers. So my mind got a little calmer in thankfulness. After completing my kitchen work, I prayed to Reiki and called up the number. I felt very relaxed, As I requested, I was given an appointment to learn the III level a week from that day. While doing this I felt a little different to choose another master. Prayed to Reiki and also informed my master about my moving forward with a new master, and she too blessed me heartily. And now began the long beautiful journey with more subtle energies guiding me most of the time, be it the smallest or biggest decisions of my life or anyone connected to me or had asked me to help them as they approached me with true trust in my words.

I was just waiting for the day of my III level of learning. Reached my master's place much before time. Waited patiently with just bliss and eager to tread the path with more refined secret knowledge that cosmos would bless me through my master. Completed the formality of registration and came to my master. Bowed to him with all due *respects* in my heart as I was meeting him for the first time, I had no words to explain my feeling of dedication to him.

So I felt very blessed to be learning as I was the only student to know it at the time. As I was drawing the symbols my master had received phone calls. First few calls I had been busy and didn't listen to what he was answering and to whom. I completed drawing symbols, now a call came and the enquiry was about the master Degree class. I heard him giving all the details about the seminar. I went through the learning that day with a totally peaceful experience throughout the attunement process and also the self-healing process. I felt very free to discuss the symbols that came to my vision as I had practiced during the II level self-healing process.

When I drew the symbols on the paper, the master said they were Karuna Reiki symbols and he offered to teach me that on the same day. And I was

totally relaxed and completely happy with getting such precious learning that day. I was thanking my master every breath for this precious day of my life. As I was about to leave, I gathered courage to ask my master if there were any conditions necessary to learn the Masters level.

He only said, if you feel you are ready for it, you can learn but register earlier. I thanked him for his non-judgemental answer and returned home. Now my mind was working towards learning the masters level, just four days from that day, I informed my family about it, made the monetary arrangements and completed the masters level learning. On that day, all my feelings of hunger and thirst and love for all my family members were fully expressed. Prepared and served a very nice dinner to my family and had it myself peacefully with all gratitude to Master and Reiki.

I was so blissful and felt like I had completed the basic learning of life. I was blessed with it but had to have a platform to be working with it in a right path by divine intelligence working through me timely.

So continued the new experiences with every breath and every day being lived with easily being able to live the Nature's law of keep self calm and in turn transmitting the same energy of *unconditional* love combined with gratitude, responsibilities, dedication, acceptance, a meager level of anger or worry.

The inner growth was getting much refined. The effect of which was, much clarity in thoughts and any situation of fear would be sensed and the energy required for it would be provided by the beautiful cosmos in just casual ways.

One day it so happened that my husband was out of town, and the children left for school. Both parents were suffering from cold & fever. The telephone lines were not functioning, cash balance was low at home, the water motor had suddenly stopped functioning, my helpful people were absent from work due to their health being bad.

Now I just sat and watched, requested Reiki to guide me to the order of priority & needed to plan the execution of jobs to be completed. Yes. By a

minute I had all the clarity. I just walked to my neighbor's place and requested the doctor to visit my home to give a check up to my parents-in-law. He agreed and came home in just 10 minutes. He was such a down to earth being that he offered to drop me to a nearby medical store to get the medicines. The whole day I silently did all that they needed and by 3 PM tried to call on an electrician and plumber to set right the water pump. While I did this, my mind was very silent. Nature had kept everything in a more peaceful way. On the next day my helpful people came home before the scheduled time.

A line man from BSNL had arrived to repair the phone lines for the neighboring home. I humbly requested him to check upon my phone lines. He said he had just done it as the complaint had been registered 24 hours back. It made me spellbound, truly speaking, I had not taken this decision. But one of my known people had tried contacting me and when I'd not been able to be contacted, he had only given the complaint to help me.

So all through the situation, nature had prepared me to just watch and move calm till everything came to be solved. Here I felt, it's the energy within our heart chakra that determines if we can worry, remain disturbed, restless or peaceful from when the problem begins till it gets solved.

As a child of 7 years, I used to look up to the sky and ask God, how will I manage myself in this world full of intelligence and cheating as I could feel I can only live by Nature's law of unconditional pure love and now I got the answers.

Now my thoughts moved towards I would heal as well as teach the needy by making it easier for all who needed it and also were inclined towards its functioning. My major priority was my aged parents-in-law who were 90 and 80 years of age. I knew they were the duty allotted by god to be taken care of with a lot of concern, so my presence around them was most important. So I began making plans to make our residential space bigger to meet the needs of my family and also mankind.

The construction work began in May, 1998 and was completed by September. So I started utilizing the ground floor to heal and teach Reiki. Which had started pouring a lot of helpful people in my life. This I had always experienced, but now I was being helped before I even asked for it.

As I began this, I was always guided to help more women and children. A few women, though educated, lacked the confidence to drive a two-wheeler or a four-wheeler. Some women were afraid to speak loudly, some of them suffered from unimaginable kinds of pains from their spouses. Some were being deprived of the right food, clothes or shelter. Some deprived of sleep, deprived of the freedom to go and meet friends.

Some deprived of everything but made to work like slaves or servants. Some were suffering emotionally due to lack of love from their husband or his family. Some were beaten up even after taking up all the responsibilities without rest. Some suffered from the husbands forcing the wives to yield to their vasanas in spite of having bad health. I began giving them small healing sessions and also taught them I and II levels of Reiki. It helped them greatly to firstly come out of the pains they had undergone all these years in the various ways. Then it also made them stronger at heart to accept life in a more open minded way and the energies had brought in vast changes in the situations they went through from earlier to now. I thanked the cosmos for having made these souls peaceful at heart and also good and strong in most ways.

Regular self-healing process that I went through, opened up a lot of mystic secrets of nature to me. My living was very simple as had been in the hands of cosmos. And it made me aware of it more clearly. In the meanwhile, my son who was born with a few health issues by birth needed attention. Now his age was 9 years, we had approached a few doctors earlier. No one had made us clear on the root cause of the various problems.

I had attuned my son for the I level of Reiki and within 21 days we were guided to the best doctors in Bangalore. So he had to go through 3 surgeries between the age of 10 and 14. Which changed his life completely. The greatest blessing to this child by nature was, he is always smiling, active, bold and confident. An Engineer and MBA graduate now. He works at an MNC today. I always thanked nature for blessing me with this child. So that with the right guidance from energies he emerged beyond my expectation in

education and also human values, taking care of our health anytime we needed.

My daughter was in std VIII when I started my Reiki career. I found her improving much in her academics and also being focused. Most importantly, she had grown-up with good moral values to complete her MSc in psychology. Reiki intentions had helped get her married to the right person at the right time. Today she is content and responsible with an 8 year old, very brilliant son. I trust nature has blessed her in a very great way to make her life more peaceful with a lot of good intentions for self and others.

I came across a 21 year old boy who had been debarred from answering his exams. He was an outgoing young boy who would always go to help others just anytime required. He was good and was being exploited many times in various ways by different people. He was unable to get any job. His parents also abused him for his behaviors. Reiki helped him take a clear decision in any given situation. He got a very good job even though he was a non-graduate. A lot of his family members also benefited from the Reiki energies by putting their lives into a more organized manner. Reiki helped me in every possible way to make me and my family more peaceful, healthy and always live in abundance. It filled a lot of love in many relationships who were disconnected by some or other reason for decades.

On one of my birthdays, few of my students gifted me an Accu-Chek machine. I wasn't diabetic then. I accepted it silently and kept it safely. Then after 2 years, when my husband had an open heart surgery, which was also a timely Reiki guidance to one of the most renowned hospitals in Bangalore, I was asked to check the sugar levels frequently. That's when I used it and thanked Reiki for blessing me with any and everything I needed before I needed it.

One morning I was planning to clean up the house. My vacuum cleaner had failed for some reason. So I just dropped that work and went ahead with other jobs. As I was getting down the stairs I was struck with a thought to have at least a cob-web cleaning brush. I just went to the gate and to my surprise, I found a caravan with cleaning brush walking towards my gate. I asked her about the cost. In thanking nature and her, I paid her an extra. She questioned me saying, all the people bargain, why are you paying me more? I said, you've brought it for me to my door, when I needed it the most. Such situations are great eye openers to realize and recognize how clearly nature has predestined everything for our lives. If we plan to keep our mind calm, our thoughts get clean and our thoughts get clear and we can be making our lives more peaceful and progressing in great accomplishing ways.

As I was going through the healing processes, I could hear some mystic sounds, visualize a few symbols and also a clear vision of gods occupying their place in my chakras. Nature was repeatedly taking me to inner silence and thoughts were guided towards certain precious concepts and nature's laws of allowing the cosmic grace to flow.

By now I had started feeling that the unconditional love energy was playing its role in all of my life situations and also with those related to or connected with me. There was a kind of generosity in the heart, be it in healing the needy or in doing charity, without any expectation of even any exchange as it is the nature which would keep an account of each of all our thoughts, words and actions.

Everyday I got up with gratitude for a good sleep and with a prayer to make my day useful to all who need my help. Thus. keeping me happy and also giving happiness to others in the right ways of success. A few days later I came across a doctor's family whose child had severe breathing troubles. Just began the Reiki healing on distance, by a month the frequency of wheezing attacks had reduced considerably. In some months it had totally been cured and would occur only if he traveled to extreme climates.

A 25 year old boy just came to help me in some ways I needed. I found him very good in behavior but he used to be unorganized in work or lacked time sense. Reiki healing and learning helped him greatly to achieve his ambitions and goals to manifest easily with a greater refined level of intuitive mind. Today he is a very confident and successful person in his own way.

A woman approached me with a lot of confusion in her family and health issues with everyone in the family. Reiki healing of three days relaxed her to a great level, to maintain the energy levels. To maintain her energy levels, I advised her to learn level two of Reiki, which she did with all positive attitude and today is very happy with the progress of her children and family in every way.

By now many people had come to know about my Reiki healing and teaching. They took the freedom to call me up and discuss their problem with me and go through the Reiki healing and Reiki learning sessions, which has benefitted them as well as their families greatly. In terms of relationships becoming harmonious, financial growth and more frequently by increasing the acceptance of the behaviors of the family members.

If we begin to implement the principles of Reiki in our lives, there can be peace in most of the relationships. The root cause of all sufferings are expectations from life and people. The moment we reach an energy to believe that what we are receiving is what we deserve by Nature's law.

Human mind mostly craves for respect, name, fame, honor, awards, rewards from all. And when it does not get it, it feels angry and disturbed and uses abusive language to hurt others. Thus creating negativity for self and others too.

Now I was being invited to render a few lectures on Reiki at Women's Association, Study Circle groups in nationalized banks and also at LIC of India. This brought in some more beings into the precious world of Reiki and helped become a powerful Reiki channel to help mankind in a greater way.

A few school students of age 7 to 14 were taught Reiki I level. It was observed that their concentration and memory had gotten tremendously refined and the learning time also reduced. With added skill of clear expression and answering the examination by keeping the minds calmer. Scoring higher grades than what they did earlier.

A vegetable vendor lady used to come daily, she used to only come and go. One day I asked her why she did that. Her answer was, the day I see you, my sales go beyond my imagination and I make profits. So, from now on I have decided to offer a few flowers for your prayers. Even today she does this for me and it's more than 15 years now. It's only in our own energies to receive positive energies we make our and others lives better.

One day a boy had left home without any clues for the family to search him. The parents informed me about it. In seconds as I tried to connect to Reiki I got the vision of the boy standing on a bridge in Chennai. I just healed his heart chakra and passed affirmation to help him get the mind to return home sooner. After this I got a call from parents that the boy had said he would be home by night. Reiki had played its role in a more refined way. This boy later came and learnt Reiki till all 5 levels and is today living a very peaceful life with his wife and parents.

One day a boy about 20 years of age came in. He was very disturbed emotionally. It was very clear from his looks that he lacked unconditional love. After putting him through about three days of healing with Reiki, asked him a few questions in which he shared about the various kinds of life situations he had gone through. His mother being ill frequently, father being busy mostly and ultimately it had affected his education very badly.

He learnt two levels of Reiki, made himself stable and completed his graduation with a first class percentage of marks. Now he himself came forward to learn the next two levels of Reiki and nature blessed him with a gold medal in his master's level of LLB. Today I see him as a very successful person with a good family and well behaved son.

A family came down to stay from Patna to about 10 houses on my left side. Someone had told them earlier about Reiki. The lady approached me casually but felt happy and told me about a lot of her plans. She went through the II levels of Reiki. It relaxed her a lot. She had a very big project to sell one of her houses in Patna and take a new house in Bangalore. She told me about it. I just told her, she should intend positively and I shall intend with Reiki. By a week she had people calling her to purchase the house. Then within a week, she went personally and completed the sale and returned happily. By 2 months she even purchased a new house in Bangalore. All this happened in a very short span of 4 months.

And she had all regards and dedication to Reiki. Which had made her and family be in the right spirits and take correct decisions at the right times.

A girl 21 years of age came in. She had problems in her studies and was in an emotional relationship with a young boy. He never seemed to be committed to settling with her in life. She was too confused and unable to come to any decisions. Completing Reiki 3rd level helped her get out of this disturbing relationship pattern and make peace with life.

Now her parents looked for a right alliance and she could settle her life with a well-behaved person and be happy in her life.

A family had shifted from Mysore to my area of residence. She had a severe migraine headache. Reiki healing of half an hour once had rid her of this problem once and for all. She came forward to learn all the five levels of Reiki and today is a Reiki master teaching Reiki at Chennai.

Once a young graduate approached me with a severe addiction to smoking and was though known to be positive but couldn't be peaceful. After three healing sessions he felt quite relaxed.

He learnt three levels of Reiki which helped him come to a major decision of life to settle in marriage. This made him a very responsible and successful person with good career growth and also a good family with a daughter and son. He owes all the credit to Reiki and lives in gratitude at most times.

One day I was invited by a family for some spiritual program. I could go very comfortably. As I entered the place, my attention was directed to a person. She had undergone surgery a few days ago. I had healed her on distance, she felt very delighted to meet me. She had not learnt Reiki or knew anything about it. I casually told her to come to my place after she recuperated. From that day only she was able to feel my energies and improved her health. Being a dedicated person, she was taking care of her father who was 70 years old. She went through the three levels of Reiki and it made her confident and helped her go through life much more calmly. To take the intuitive path to give right medication to her father. It's more than 15 years she has been into the blissful world of Reiki. Her thought process being very accurate and with total trust in Reiki. Even to this day, she lives the Reiki guided life at every breath in being in gratitude to master always, being helpful as mentioned in our Indian shastras with an attitude of Guru Seva

Dedication can relieve us of any sins and sufferings carried over from unknown reasons. A young girl about age 27 casually approached me. She had a lot of need for clarity regarding her further life. She had a very good government job. Her parents, who she lived with, used to have frequent fights and the mother suffered a lot. Because of which, she developed a dislike for marriage. She came forward to learn the first and second levels of Reiki. She practiced well and started feeling good and positive about life in a unique way. The day I attuned for the III level, she got the clear vision of five more symbols. She drew them on the paper, Nature had proved, she was ready to learn the next two levels as well by giving a 21 day cleanse period. I went

ahead to attune her for the 4th level and after 21 days to the 5th level. By now, she had become very receptive to nature's blessings and her marriage got settled within a period of 6 months. She had to relocate from Poona to Bangalore. She lived a calm life. Now blessed with two boys, who are now studying well.

Her sensitivity and refined Reiki energies have blessed all her family members in a great way. She has a very generous heart, which attracts all that she needs in her life. Today she leads a very blissful life by taking right decisions of life at the right time with divine intelligence guiding her.

A girl approached me, she had completed her postgraduate about a year ago. She had not got a right job nor was able to get the right alliance for marriage. She had learnt II Reiki levels from some other master long back but had not been practicing regularly. After reattuning her, advised her to practice regularly for a few days. She had reduced worrying but nothing moved on the job or marriage part. Attuning her to third level Reiki gave her a positive breakthrough, within 15 days she secured a good job. Within two months attuning her to 4th level helped her get a right alliance and she has settled peacefully in her life. Now she has two children and is leading a happy family life.

Let me make a mention of how in my own life, relationships, health of the family, financial status of the family and the upcoming of every life situation giving more and more clarity to nature's laws.

Everyday nature began to wake me up at exactly 4.30 am. To go with my morning chores and be meditating and practicing self-healing within 6 am. Being a traditional Hindu brahmin housewife, my day in the kitchen would begin only after a bath and short pooja of 15 minutes. Next the preparation of breakfast and serving all family members and then also packing lunch for husband and children. Later get ready to be helpful to the needy from 10 am either healing or teaching Reiki. My lunch time would be varying between 1.30 to 2.30 PM. Until my health went a little down in 2013, I worked till 6 PM with a short lunch break. My family would also get attention when they needed it the most.

One evening it rained very heavily, it was about 6.30 PM. I just entered my mother-in-law's room and sensed her tiredness as she vomited. I sensed it may be a heart attack. My son and daughter were with me, and my husband was posted about 200 km away from Bangalore. He was there, I just called the ambulance, and admitted her to a neighboring hospital. They asked me to shift her to a cardiac care hospital, within half an hour we went there.

It was 9 PM by then. I sent my son back home and stayed with her in the hospital and continued to pray to Reiki for her to be healed with the care of the right doctors. Meanwhile, in the whole night, more than 5 people were brought into the ICU ward. All had breathed their last in a few minutes. My gods and Reiki energies had blessed my mother in law with improved health every hour. I thanked nature for its blessings. She was sent home on the 4th day with some medication and instructions. After this, she lived with good health till March 2007 and then breathed her last. She herself practiced Reiki regularly and was a calm person mostly.

Both my children used to manage themselves well in studies, daughter completing her MSc psychology, son also completed his Engineering and secured a good job at a MNC.

Now my grandson was born in 2009. In 2010 my craving to have darshans at various spiritual places had become very strong. I requested my husband to join me on a 22-day tour with one of the famous travel companies. It started with a train journey to Delhi. There, very close to our stay, we came across a Shree Lakshmi Narasimha temple. I was very delighted as it is my family god.

We moved to Allahabad Triveni Sangam, a very blissful experience with the waters of Ganga, Yamuna and Saraswati. Then we reached Kashi, the ever blessing Kashi Vishwanath jyotirlinga darshan was too unique with great peace at heart. Devi Annapurneshwari was as though blessing me for life. In all these places, the energy circulation through all the chakras and entire body could be experienced very clearly. Now our journey was to Gaya, a unique place with the energies directly making the heart chakra one with the cosmos with total bliss. Here a few rituals were performed. Here we promised to stop

eating three things my husband loved the most. The fruit was Guava, the sweet was gulab jamun, and the vegetable was beans. We follow it even to this day with total dedication to lord Vishnu.

Next we moved to Haridwar, the most soothing river bank of the Ganga. Had a holy dip, watched the Ganga aarathi. Then had darshans of a few temples in Haridwar and a few ashrams at Rishikesh too. Such a clean vegetation and thick forest to give calmness to the mind and body.

Now the two most important spiritual spaces, kedarnath and badrinath. We were so blessed with every arrangement as if filled with energy.

Many had problems with rooms, cleanliness, bed, water, mosquitoes. But, we were so blessed to have perfectly right things by cosmic energy. Journey gave a blissful feeling all through between the clean trees and very cool atmosphere as if washing away all the waste thoughts in our mind. The darshans at both the temples had proved what nature can do for us when we are close to it. Badrinath, called the land of all Deva and Devathas. The land itself is blissful. The mountains and rivers provide a very soothing feast to the eyes and calmness to the mind. The most precious journey on this earth leading one closer to nature, just simply blissful. Heart was full with the journey and even to this day, the memory is as fresh as it was on that day. It's my normal habit to spread the energies of such places to all those who relate to me. So I purchased about 250 key chains, 200 Vishnu padas and about a 100 Gangajal pots to distribute. It was a great pleasure to purchase Kashi silk sarees for my close kith and kin. Then after a safe return the traditional celebration of Annadanam after Badri darshan. We invited about 150 members to our home and enjoyed narrating the divine bliss at the spiritual Spaces.

Most importantly, there was a feeling of realization in the physical and mental bodies after performing the rituals related to ancestors. The holy dips at Haridwar, Kashi, Gaya, Allahabad. Hot water springs at Kedarnath and Badrinath were of unexplainable sense of purity and sanctity in every way.

I encouraged many to visit these places for their well-being. Since then, any person I meet, I speak about this divine journey and help them also achieve this bliss.

One day a newly married girl approached me with some health issues. She had severe back ache and some serious problems with her eyes. In between all this, her in-laws pressured her to have a child. I totally surrendered to Reiki and took her through three levels of Reiki. This helped her become strong and healthy. By the fourth level of Reiki and regular practice she had become very refined.

She observed a great change in the way her people treated her now. Everyone respected her and cared for her and stopped troubling.

Now her mind was ready for a child, and today she has an 8 year old son who is good at playing musical instruments and writing good essays. The whole family is happy and harmonious as well. The boy also secured some prizes.

A mother approached me and said she had learnt two levels of Reiki but wasn't practicing regularly. After advising her to heal herself regularly, my attention moved on to her son who was beside her. She told me he had completed his studies, had a job too but due to some discomfort had left the job a few months back. Since then, he had been searching for good opportunities but nothing had come up positively. After three healing sessions and teaching two levels of Reiki, he secured a very good job and lived happily with his family.

A girl approached me as she found herself short tempered most of the time. With three healing sessions she felt better. She also located the root cause of her such behavior being lack of confidence and high expectations from others. She learnt the three levels of Reiki. Now she liked a boy and wished to marry him and make her future life with him. Then she learned the fourth level of Reiki. Even then, her fears of expressing her need to her parents did not happen. But she had complete trust with Reiki energies. By time she expressed it to her parents and had a very calm marriage. With this she gained a lot of confidence to face anything and everything that came in her life. She is happy that she could settle with the person of her choice.

Most of the people who learnt Reiki and had been able to surrender to nature with total trust in its plans for them and had begun to live their lives in abundance, acceptance and most importantly least complaints about life or people or their behavior. Reiki has helped all to lead a calm life in spite of challenging situations. The thought process has made a tremendous movement from negative to positive most times. All have begun to understand the concept of need and deserve much more clearly being influenced by our thought process.

The most surprising thing was, when many who had learnt Reiki from me reported to me how they felt when they passed by my home. They told me, in the period when I was in Delhi for two years, they used to come near my house gate and pray for their intentions to work out, it would manifest before they could imagine.

A few of the Reiki channels also reported the feeling of my house agarbatti and chandan making its presence in their homes whenever they were in any trouble and tried to remember me, they would feel relaxed and the problem would also get solved earlier than expected.

Many times it has been observed that a few people who had neither met me nor spoken to me, were told about me. When they requested me for predictions, when they had lost a few valuables like diamond earrings worth Rs 2 lakhs. It was predicted to be found within 48 hours and was taken by their servant. By Reiki intention it was found although they had lost all hopes about finding it back. The Reiki energies make a difference in all who stay connected to it directly or indirectly.

A very minute sensation of a situation that occurred at my place. Once the water motor stopped working. I was busy with some work. I requested one of my family members to get it repaired. It was done but with a lot of unwillingness and it cost about Rs 250. To my surprise it stopped working within 24 hours. This time I requested Reiki to take care of this repair work. As I was planning to move out the same person who had repaired it was going on the road. I called him, and he repaired it again, charging the same amount. It has never failed working after that till this day. Reiki works uniquely and beyond our imagination. In many situations like a celebration of

marriage, naming ceremony, house warming or any, when connected with Reiki makes the situation complete with all good vibrations.

Going back to a situation of parents in laws period. Once it so happened that a few of their close relatives wanted them to be going and residing at their place for a few days. In previous such instances it had happened that when they went and returned from their places, the older persons would fall ill severely and we even had to hospitalize them and bring them back to normalcy by putting in more energy, time and also financial parts would get disturbed. So this time my heart was unwilling to send them away from me and my house. When it came to how it shall manifest, I only humbly requested Reiki. The next day, when the plan was to send them, nature heard my prayers and my whole road was full of boulders for the repair work and no vehicles could move on the road. I understood very clearly how nature takes care of our intentions if it's deep from the heart to do the best for anyone on this earth. I lived in gratitude all the more that it had taken precaution not to make the weak persons suffer more.

A boy studying in college wished to purchase a bike of his choice, but his parents were insisting on him to purchase some other. He had neither met me nor spoken to me. I was just told about this situation. Reiki intention had worked so well for him that it prompted him to learn four levels of Reiki. In later years giving him good job opportunities and also a very good life partner. Even to this day, he lives in gratitude to Reiki and shall definitely be guided rightly on right times by energies.

A family of four people have been connected to Reiki for the past 15 years. After the mother learnt three levels of Reiki, children also learnt it. This had brought in a lot of their situations moving in directions of happiness and growth beyond their imagination. The boy has a well paying job, the girl is also with a good job and also her marriage is settled with a good human being. They live in gratitude to Reiki and their master's words.

Once an opportunity came for me to speak on Reiki at a place called Talikoti in Karnataka. To make my work easier, a girl who was a 3rd level Reiki channel accompanied me. Normally I avoid eating food at restaurants or hotels for many reasons especially to maintain the purity of the body and aura. I was offered a light breakfast by one of the families in that village. As I was about to leave, my hands touched on a woman's left arm, thanking her. She showed a surprise-full look. The talk began and completed, by then about 15 people decided to learn it.

It was completed with great welcome from all who learnt it. Among them was the woman who offered me breakfast. To my surprise, she uttered a few words to express her feelings after I touched her on her left arm. She said she had pain in that area for many years and it just moved away from her body as I touched her. Reiki is divine intelligence. It works on the root cause of any problem and goes deep to care completely. We reached home the next day, thanking all in that village.

A unique experience that revealed a lot of secrets of nature in a more clean way. Reiki guides us at every of our decisions in a more sensitive way than we can imagine. We had to plan for a tour to the Andaman islands. We had to choose May month or December, I was continuously guided to take it up in May only. Then it happened that the Tsunami took place and we were safe during our travels.

CONCLUSION

In addition to Reiki, I have also learnt Feng Shui, Vastu, Numerology, Vedic Healing, Crystal Healing, Spiritual Healing, Powerful Healing Techniques, Egyptian Cartouche, Violet Fire Meditation, Melchizedek Merkaba Meditation, Psycho-Linguistic Programming, Switch Words, Auriculotherapy, Bach Flower Therapy, Angels Blessing Course, etc., to help people.

I am in deep gratitude to God, Deities, Angels, my spiritual Guru, and my personal Reiki Masters, for choosing me to be a Reiki Master.

I am thankful to my parents, parents-in-law and my husband to have allowed me to work in Reiki always.

I am thankful to all of my Reiki students for being with me in group prayers at all times sincerely.

A special thanks to Master Roshan Hegde for the English e-book and Master K.S. Neela for the Kannada e-book.

Thank you all who are connected with me as you read this.

Cosmos bless all.

I met ma'am in 2013 when I was going through one of the worst possible phases of my life. Though I had learnt Reiki before from another master, I had moved away from it and had given up on life totally. But it was only after meeting ma'am that I started believing in myself again. She helped me reconnect with Reiki and myself with so much love. There were days I would break down, but she stood there like a pillar of strength no matter what, with unconditional love... She helped me as I progressed in Reiki to the master level, hand holding me at every stage, guiding me to ensure I practiced.... And all this with incredible patience and love... With Reiki, the more I practiced, the more I was at peace with myself and with people and situations around me... I slowly started seeing the magic of Reiki unfold in my life under ma'am guidance.

What always mesmerized me was, she selflessly taught Reiki to those who really needed it in their lives without thinking about what she could earn from it... Today, I can happily say that I have overcome the worst in my life and today my life has taken a 360 degree turn with all the happiness. And all this, even when I was in doubt, ma'am always strongly believed that I had it in my destiny. Even today, if I am a little stressed, I wonder how she senses it. I almost immediately get a message from her asking if I am ok... This has happened so many times that I should be used to it, but no it still surprises me every time. Such is her love and connection with her students... With Reiki and ma'am today I have become the strong person that ma'am always believed I can be.

In this 19+ years of Reiki journey with Her Grace Maithili ma, I have realized about myself, my ability to do many divine things effortlessly, value everything which comes in your way, not puffing up and giving credits to others. I have become no-one to someone who is unique, different from other

people of the common society - all credit goes to Ma. Though she has taught me all kinds of techniques from different modalities to know how things work, I always wonder, how Ma will come to know about my current situation and extend her helping hand within no time. With the guidance and blessings of ma n masters, I'm able to teach Reiki basics to the needy to my ability which is working for them greatly.

My sincere gratitude to Ma for being in my life as spiritual mother, guide, guru, mentor....etc Always Love you Ma.... Thank you, Thank you, Thank you.

I came from Goa and was looking for a job in Bangalore, had low self confidence, not getting shortlisted for interview calls for jobs. As I enrolled into each Reiki session until Reiki Mastership, emotional healing in each level helped me regain the confidence. I joined a job in GM in ITPL on 3rd July 2006. Then I called my family members from native place. My parents, brother and far off family relatives each one who attended Reiki Sessions had miraculous breakthroughs in at least one field they were aspiring for. Eg. education, job, marriage to family relations. It has been a divine and amazing journey to learn Reiki for everyone I have been in touch with.

Maithili madam, who is fondly called as MAA, is a very good, kind hearted and spiritual person. She is my Reiki teacher and guide. She always guides me in the right direction and supports me if any help is needed.

It was in Jan 2008 when I first heard of REIKI from one of my colleagues. We were working late at night and I was feeling a little uncomfortable when my colleague passed on some energy and I started feeling better. He informed me about his Reiki teacher and asked me to meet the teacher once. In Feb 2008 I met her and till date believe that I took the right decision to meet her and get associated with her and in the process completed my mastership in Reiki. I also learned to live life in gratitude which is very important. After

meeting her and being with her, a lot of miracles happened in my life like my job got into a good position, my brother's troubled marriage life solved, without even meeting my brother with distance healing, my marriage etc.. to name a few. Her guidance in my marriage helped me to select the perfect soulmate who is very understanding and very supportive in difficult times.

Many of her students like me have benefitted from being associated with her with Reiki. I truly believe there are many more students who are destined to meet her and experience miracles in their life.

All the best to everyone.

Meeting a Reiki master can bring about various positive shifts and experiences. Some people report feeling a deep sense of relaxation and peace during Reiki sessions. Others may experience an increased awareness of their own energy and a greater connection to their inner self. Miracles can vary from person to person, but many have shared stories of improved physical and emotional well-being, enhanced intuition, and a greater sense of purpose in life. It's a unique journey for each individual! 😊☀️ I am lucky to get introduced to master ji through my husband. I am very grateful to lord for choosing me to be a student of master ji. My life has changed. I have changed in many ways for good and there are many miracles in our life to pen after coming in touch with her Starting with my wedding, my kidney stones surgery, my sister in-law's wedding, my delivery, my in-laws surgery, my daughter 's school admission, my promotion there are so many incidents which is just a miracle after surrendering to ma and all set to face many more miracles with her presence. She is the persona of our happy stress-free life.... Thank you ma for always being there for us.

Ma!

That's how I addressed her the first time in mid 2015, I met her around Guru Purnima (divine timing). It was the most defining moment of my life, other than perhaps being born. My life can be clearly differentiated to before and after meeting her. I was someone fearful, a failure in my own eyes, full of defective thoughts, beliefs and perceptions and without a sense of responsibility or a vision for life.

Ma taught me all five levels of Reiki and provided me with proper spiritual guidance to mold me into a grateful, humble and confident human being with a vision that's no longer just about me. I've had countless miracles in my journey with her and will share a few below. However, an even more important learning for me was in watching her words and actions in day to day life. Scriptures elucidate these to be the qualities of a true Guru.

She is always non-judgmental towards one and all and treats everyone the same.

She is in a constant state of gratitude for even the smallest of help and thanks everyone so genuinely and profusely that it's sometimes embarrassing given how much she has helped you already!

Is unfazed and has complete trust in God even in the most difficult of circumstances be it for herself or for those seeking her guidance and help.

Accepts anything & everything that happens as divine will

Has tremendous compassion and feels the suffering of the other

Can sense your thoughts and intent and guide accordingly even when you don't say or tend to say something else.

Can heal or help get a breakthrough by mere thought

These are some of the qualities my limited understanding could comprehend. Now coming to the miracles or breakthroughs in my life. Since connecting with her my whole life has been one big miracle, and there are too many instances to note but will share a few that come to mind.

My marriage - By the time I was 29, I had no clarity on the marriage part and when ma said I should get married and then with a miraculous turn of events, I got married to my soulmate very happily despite numerous external challenges.

My sister's marriage - I had no money and the whole family was against it, based on the partner my sister chose. Only through Ma's blessings I could get the courage to bring everyone onboard and arrange the funds and get the marriage completed peacefully.

Job Change - I had left a challenging (people) job in anticipation of another which was on hold as I could not get the increment papers (had misplaced it while shifting house) from my previous company. Out of desperation and fear after many days of uncertainty and while praying to god I asked Ma about it and she kept saying there is a divine plan. Though frustrated from the situation I trusted her words and asked if I could meet her that day. While I was riding to her place the company called and sent me an offer letter as per expectation. The next day my former roommate called and said he found some files of mine which also had the previous increment letter (if I had submitted it, I would have got less hike in the new company)

Kidney Stone operation - a few months after marriage my wife had a kidney stone surgery during which she mentioned that she experienced Ma's hand healing her during the process.

Office colleague accusation - a female colleague in office had wrongfully accused me of misbehavior just around the time of my marriage. I was deeply hurt by the experience and when I called Ma to share this, she calmed me by saying God will take care and even shed a tear out of compassion for me. When I was on wedding vacation that very person was fired from the company for guess what!

Healing the heart - In another deeply personal painful experience I just called ma and shared my sorrow and was weeping in a bus as I could not control. Ma just said, I am with you, do not worry and in that moment something changed in my heart and I felt a profound lightness in my heart and the pain was instantly gone. So much so that I don't even remember it today but very vividly recall the healing.

Mystical Experience at her house - We were blessed once to stay at her house on account of her birthday and as I woke up in the morning. I had an experience where every cell in my body, a voice from within and everything I see outside and even the air I could feel caressing my body was only saying bhagavan, bhagavan, bhagavan 🙏🙏🙏 It was like this for 30-40 mins. I don't

know how to best describe it but it was the blissful, calming and fulfilling experience of my life. Worth living for and even worth dying for! Nothing else comes even remotely close.

But the most important thing for me in being connected to ma, is this deep realization and conviction that in her grace and wisdom she has taken the responsibility of my life and therefore my success in this world and my liberation in the other is certain.

Thank you so so much for everything Ma 🙏 Love you ❤️
Padapranams Ma 🙏

SECTION 3 - Switch Words Experience

MAITHILI V

Good morning, I had a fantastic experience with the switch word “Rush Ink Deal Done” . I was really struggling to sell my two flats for the past four years and each flat ~100-150 people saw in the last four years. People were liking the flat but they were not coming forward to talk and were not buying it. So it was a really difficult experience for us as to why it was not going in spite of the flats being good and also situated in prime location and everything else was good. So when Maithili ma gave me this switch word, I really... from the bottom of my heart I chanted this. And she also told me to chant five minutes before talking to the client. I did this. Amazingly! Amazingly!!! Both my flats got sold! In the sense, they gave advance the same day, one in the afternoon by 1.30 and the other at evening 7.30. The best part is both the flats there was competition to buy, two people came at the same time to buy. Of course one person was disappointed because he couldn't get the flat. But it was an amazing experience from four days of struggle to one day of success in both the flats, it was a really really amazing experience with Rush Ink Deal Done. Superb, thank you, thank you and thank you so much! Bye bye!

My second experience with switch words was my i20 (Hyundia) which was almost 15 years old. So I was planning to sell for the past one year but nothing was happening. In fact I was also not taking much action to sell that, but many people I had told but nothing was happening (working out). So when I told Maithili Ma, she gave me this switch word. “Light Up, Give Count, Deal Now”. And amazingly within three days, the i20 got sold for the best price and for the best person, who really wanted this vehicle as well. So it was an amazing experience with this switch word as well, superb experience. I am really indebted to the universe and maithili ma for having given me this switch word which worked so well. Thank you, thank you and thank you so much! Bye bye!
